

Adithyan Ashok PV

Full-Stack Developer | NodeJs (NestJS and ExpressJS) | ReactJs | AWS

Malappuram, Kerala, India | Open to relocate | +91 7558006610 | adithyanashok406@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

SUMMARY

Full-Stack Developer with 1+ years of experience building and deploying scalable web and mobile applications using Node.js (NestJs, Express) and React/Next.js. Experienced in designing microservice architecture, implementing secure authentication systems, and deploying production ready applications on AWS using Docker and CI/CD pipelines.

SKILLS & TECHNOLOGIES

- **Frontend:** ReactJs, NextJs, TypeScript, HTML5, CSS3, Tailwind CSS, Redux Toolkit.
- **Backend:** NodeJs(NestJs and ExpressJs), RestApi, Microservices, TypeScript
- **Cloud & DevOps:** AWS, CI/CD pipelines, Docker, Firebase, Github Actions
- **Database:** PostgresSQL, MongoDB, Redis
- **Tools:** Cursor, Antigravity, Swagger, Postman, Git & Github

WORK EXPERIENCE

Full Stack Developer | Remote

Feb 2025 - Feb 2026

- Designed and developed full-stack web and mobile applications using React, Node.js, and Flutter for real-world client use cases
- Translated business requirements into scalable technical solutions, improving development efficiency and feature delivery
- Built and deployed production ready APIs and services with secure authentication and optimized performance
- Collaborated with clients to deliver end to end solutions, including deployment and post-release support

PROJECTS

Wise Banker - Finance Tracker (Client Project)

- Developed and launched a personal finance mobile app with 1000+ downloads on Google Play Store
- Built RESTful APIs and integrated Firebase Cloud Messaging for real-time notifications
- Implemented SMS-based transaction parsing for automated financial tracking

Wise Banker - Financial Assessment Platform (Client Project)

- Built a full-stack fintech platform enabling users to analyze financial health and access financial services
- Designed backend using Node.js and Express with PostgreSQL and MongoDB for hybrid data handling
- Implemented server-side PDF generation for dynamic financial reports
- Integrated AWS S3 for secure file storage and Razorpay for payment processing
- Delivered a complete end-to-end user workflow from onboarding to report generation

GameVera - Game Review Platform (Personal Project) | [Live Link](#) | [Github](#)

A scalable game review platform using microservice architecture.

- Architected a microservices-based system with 6 independent services using NestJS
- Built a real-time discussion system using Socket.IO for live user interaction
- Integrated AI (Google Gemini) to generate game insights from user reviews
- Implemented secure authentication (JWT + OAuth) with CSRF protection and rate limiting
- Optimized performance using caching, reducing API response times
- Deployed using Docker and AWS with CI/CD pipelines
- Tech Used: ReactJs, Tailwind, NestJS, PostgreSQL, MySQL,TypeOrm, AWS, Docker, CI/CD, SocketIO.

SaaS-Based Gym Management Application - React Native + NestJS (Personal Project) | [Github](#)

- Developed a subscription-based SaaS platform for gym owners
- Implemented CRM features for managing members and subscriptions
- Integrated Stripe for payments and Twilio for OTP authentication
- Used Redis for token management and session security
- Designed scalable backend using NestJS and PostgreSQL
- Tech Used: React Native, NestJS, PostgreSQL, TypeORM, Redis, Stripe, AWS S3, Docker, Twilio, Swagger.

EDUCATION

Bachelor of Commerce (B.Com)

LBS Model Degree College Parappanangadi, Malappuram, Kerala

2023 - 2025
